Free download TutorSpeaks Keyboard For Windows 8.1, 10, XP, 8 Mac Free. 100% working TutorSpeaks Keyboard For Windows 8.1, 10, XP, 8 Mac Free. download for free using the given link or by the above methods. If you have any problem please contact us on one of the below methods. sms to me: +91-9999999999Q: How can I test if a string ends with a specific character using sed I am doing something like below sed -i/s/10.0.0.0/10.0.0.254/g /etc/resolv.conf and I get the below error sed: -e expression #1, char 23: unknown option to `s' How can I include some regex in the sed command to test if a string ends with a certain character? A: You could use a positive lookahead assertion. sed -i/s/(?=10.0.0.0)/10.0.0.254/g /etc/resolv.conf The above assumes that the string may only have 10.0.0.0. if you want to be more generic, you could use a negative look 82157476af
